SUMMARY

Hi,

My name is Le Quang Nghi (Lê Quang Nghị), I've currently lived in HCMC.
My previous job was in Hotel Business - I was an Assistant Hotel Manager, but I'm passionate about IT so I want a career transition.
I've been self studying Java, Data Structure and Algorithms, and my next targets are HTML, CSS, Javascript.
I would be thankful if I could get an internship at your company.

My best regards, Nghị

TECHNICAL SKILLS

- **Web Developer:** Java, Data Structure & Algorithm, English - Good, Japanese - N5.

Other skills: Google Searching

EDUCATION

Cao Đẳng Kỹ Thuật Cao Thắng | 08/2017 - 08/2018
Major: Information Technology

PROJECTS

Project: Widgets Application on Desktop
Time: 1 Week
Description:
- My widgets project has 4 widgets with Java:
1. Clock
2. Stopwatch
3. Countdown Timer
4. Calculator
- I use Launch4j appication to make this widgets project executable on desktop

Project: Snake Game
Description:
Some difficulties I went through with this snake game is:
1. Repaint objects (snake, apple) every time the snake moves and when the apple re-appears on the screen again
2. Figuring out how the snake moves
3. Check to see if the snake collides with its body or the apple
My solution?
- I've got to admit, I googled a lot to find the answers

Project: TicTacToe Game
Description:
The hardest thing in this game, to me, is to check which player wins
